

4000-0001...0005

Features:

- Accurately measures coolant concentration
- Just a few drops needed for test
- Quick and easy procedure
- Optimize coolant use and tool life

STOCK #	Type	Range
4000-0001	Synthetics	0-10%
4000-0002	Water soluble or synthetics	0-18%
4000-0003	Water soluble	0-32%

Anti-freeze / Battery Style:

Features:

- 3 scale refractometer provides direct reading of freezing point of two types of anti-freeze Solution or the charge level of battery acid
- Precise measurement of freezing point of ethylene glycol or propylene glycol
- Simple indication of charge level in battery acid
- Just a few drops needed for test
- Quick and easy test

STOCK #	Type	Measuring Range
4000-0004	Prop. Glycol/ethyl Glycol/battery Charge	-60-32° F
4000-0005	Prop. Glycol/ethyl Glycol/battery Charge	-50-0° C
