

1068-0004 可倾式分度卡盘
1068-0004 4" Tilting Index Spacer

专用于刻模铣床, 也可用于普通机床
功能为分度和两个方向的旋转。

适用于轴类、盘类、套类零件的刻线、刻字、划线及切削等项加工。

Indexing spacer perfect for small precision detail work on benchtop machines, full size mills, drills, engraving machines, jig borers, etc micro dial for easy movement of chuck 360 degree graduated ring thru hole goes all the way through indexer easy backlash adjustment tilting 0-90 degrees via graduated ring and positive lock lever.

参数: 卡盘外径: 110mm 卡盘通孔: 25mm 中心高: 70mm

Specifications: chuck diameter - 4" thru hole diamter - .984" center height - 2.75"
